

SASIKUMAR P

ML Engineer, AI | Bangalore, Karnataka

+91 93444 91553 | psasikumar972004@gmail.com | [LinkedIn](#) | [GitHub](#) | [portfolio](#)

PROFESSIONAL SUMMARY

Aspiring ML Engineer and AI enthusiast with hands-on experience in data analysis, machine learning, and LLM-based application development. Skilled in Python, SQL/MySQL, and Power BI, with practical exposure to internships and self-driven projects covering predictive modeling, statistical analysis, and business intelligence. Strong foundation in data wrangling, model building, and translating raw data into clear, actionable insights.

TECHNICAL SKILLS

Programming & Database: Python (Pandas, NumPy, Matplotlib), SQL, MySQL (Joins, Subqueries, CTEs, Window Functions, Stored Procedures), SQL Server

Machine Learning & AI: Scikit-learn, Regression & Classification, Feature Engineering, Model Evaluation (MSE, R^2), Predictive Modeling, LLM Prompt Engineering, Streamlit, GenAI Application Development

BI & Analytics: Power BI, Excel, Tableau, Data Visualization, EDA, KPI Analysis, Statistical Analysis, ETL, Forecasting, Predictive Analysis

Other: Data Wrangling & Validation, Data Governance & Integrity, Dashboard Automation, Data Storytelling, Google Sheets, Git/GitHub

Systems: Linux basics, Ubuntu, Bash, Python Environments

PROJECTS

AI SQL Query Generator & Data Explainer | Python, SQL, Streamlit, LLM ([GitHub Link](#))

- Built a Streamlit app converting plain-English questions into validated, schema-aware SQL queries using LLM prompt engineering, with a safety layer (sqlparse) blocking destructive SQL and enforcing read-only access.
- Automated business-insight generation from query results, translating raw data into plain-English summaries with actionable recommendations for non-technical users.

Tech Layoffs & AI Impact Analysis | Python, Pandas, NumPy, Matplotlib, Seaborn ([GitHub Link](#))

- Built an EDA project analyzing global tech layoffs and AI's impact across industries, with cleaning, preprocessing, and statistical analysis.
- Created bar charts, histograms, heatmaps, pie charts, and boxplots to identify layoff trends, industry performance, and geographic distribution.

Student Performance Prediction Dashboard | Python, Streamlit, Scikit-learn, Pandas, Plotly ([GitHub Link](#))

- Designed and deployed an interactive ML-based dashboard for student performance analysis.
- Performed exploratory data analysis (EDA), correlation analysis, and feature selection.
- Implemented regression modeling with performance evaluation (MSE, R^2).

INTERNSHIP EXPERIENCE

Data Analyst Intern — Gateway Software Solutions, Chennai

Jul 2025 – Aug 2025

- Automated SQL and Power BI reporting workflows for six KPIs, reducing manual reporting time by 35%.
- Conducted EDA on customer and sales data, improving decision-making efficiency by 15%.
- Designed star-schema data models in Power BI, reducing query load by 20% and improving performance.
- Developed interactive dashboards and business reports for stakeholders using SQL, Excel, and Power BI.

Data Science Intern — QSpiders, Bengaluru

Jan 2026 – Jul 2026

- Performed data preprocessing, EDA, and predictive modeling on real-world datasets using Python and SQL.
- Built dashboards and reports following industry-standard data analysis practices.

Data Analytics Intern — Deloitte Virtual Internship

- Completed a virtual internship gaining exposure to business processes, data analysis, and professional workflows in a corporate setup.

EDUCATION

Bachelor of Technology (Information Technology) 2022 – 2026

Shreenivasa Engineering College, Dharmapuri | CGPA: 7.7 / 10.0

CERTIFICATIONS

- Data Analysis Internship Certificate — Gateway Software Solutions
- AI-Enabled Applications for Customer Service — IBM SkillsBuild
- Data Analytics Virtual Internship — Deloitte
- Soft Skill Development Certificate

SOFT SKILLS

Analytical Thinking • Problem Solving • Attention to Detail • Communication • Time Management • Team Collaboration
