

SASIKUMAR P

Data Analyst | Power BI & Sales Reporting | Bangalore, Karnataka
+91 93444 91553 | psasikumar972004@gmail.com | [LinkedIn](#) | [GitHub](#) | [portfolio](#)

PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in Power BI dashboard development, maintenance, and automation, data modeling, dataset structuring, and data cleansing. Skilled in sales performance and trend analysis, SLA-driven reporting operations, and turning raw data into clear, actionable insights for stakeholders — backed by internships and self-driven projects in BI, statistical analysis, and predictive modeling, with a continuous-improvement, AI-enabled reporting mindset.

TECHNICAL SKILLS

Programming & Database: Python (Pandas, NumPy, Matplotlib, Scikit-learn), SQL, MySQL (Joins, Subqueries, CTEs, Window Functions, Stored Procedures), SQL Server, Streamlit, Plotly, ML Basics

Visualization & BI: Power BI (DAX, Power Query, Data Modeling, Star Schema, Dashboard Maintenance & Automation), Excel (Pivot Tables, VLOOKUP, XLOOKUP, Macros/VBA), Tableau, Data Visualization, Dashboard Design

Data Modeling & Reporting Ops: Dataset Structuring, Data Cleansing & Validation, Data Modeling, SLA-Driven Reporting, Ad-Hoc & Standardized Reporting Packages, Report Automation, Process Improvement

Sales & Trend Analysis: Sales Performance Analysis, Revenue & Pipeline Trend Analysis, KPI Analysis, Conversion Trend Analysis, Forecasting Analytics: Data Cleaning, EDA, Statistical Analysis (Hypothesis Testing, Correlation), Trend & Predictive Analysis, ETL, Root Cause Analysis

Business & Reporting: Business Intelligence, MIS Reporting, Stakeholder Reporting & Relationship Management, ERP Integration, AI-Enabled Reporting Mindset

Other: Data Wrangling & Governance, Data Storytelling, Google Sheets, Git/GitHub

PROJECTS

Blinkit Sales Analysis Dashboard | SQL, Power BI, Excel, Power Query ([GitHub Link](#))

- Built an end-to-end sales analytics solution on 8,500+ records across 4 outlet types, structuring datasets and modeling data to turn raw sales data into a \$1.2M revenue story.
- Used SQL (joins, subqueries, CTEs) and Power Query for data cleansing and modeling, powering an interactive, self-service Power BI dashboard with live KPI cards for sales performance and trend tracking.
- Uncovered that Tier 3 outlets drive the highest revenue (\$472K); replaced static Excel reporting with an automated Power BI dashboard, cutting report turnaround time by 40%.

Customer Behavior Analysis | MySQL, Python, Power BI ([GitHub Link](#))

- Developed an end-to-end customer behavior analysis project using MySQL, Python (Pandas), and Power BI to analyze retail sales data and generate actionable business insights.
- Performed advanced SQL analysis using Joins, CTEs, Window Functions, CASE Statements, and Aggregate Functions to evaluate customer behavior, revenue, product performance, discounts, subscriptions, and shipping methods.
- Cleaned and validated data using Python (Pandas) and built an interactive Power BI dashboard to visualize KPIs, customer segmentation, purchasing trends, and revenue performance.

AI SQL Query Generator & Data Explainer | Python, SQL, Streamlit, LLM ([GitHub Link](#))

- Built and supported a Streamlit-based diagnostic tool that converts plain-English questions into schema-aware SQL queries, including a safety/validation layer (sqlparse) that blocks destructive commands and enforces read-only access — comparable to safeguarding production systems in a support environment.
- Authored automated, plain-English explanations of query results and technical output for non-technical end users, reflecting the documentation and communication skills central to technical support.

INTERNSHIP EXPERIENCE

Data Analyst Intern — Gateway Software Solutions, Chennai

Jul 2025 – Aug 2025

- Maintained and automated SQL and Power BI reporting workflows for six KPIs within defined SLAs, reducing manual reporting time by 35%.
- Conducted EDA and trend analysis on customer and sales data, supporting leadership decisions and improving decision-making efficiency by 15%.
- Designed and structured star-schema data models in Power BI, reducing query load by 20% and improving dashboard performance.
- Developed and maintained interactive dashboards and standardized business reports for stakeholders using SQL, Excel, and Power BI, supporting ad-hoc reporting requests.

Data Science Intern — QSpiders, Bengaluru

Jan 2026 – Jul 2026

- Performed data preprocessing, cleansing, EDA, and predictive modeling on real-world datasets using Python and SQL.
- Built and maintained dashboards and reports following industry-standard data analysis and reporting practices.

Data Analytics Intern — Deloitte Virtual Internship

- Completed a virtual internship gaining exposure to business processes, stakeholder reporting, and professional workflows in a corporate setup.

EDUCATION

Bachelor of Technology (Information Technology) 2022 – 2026
Shreenivasa Engineering College, Dharmapuri | CGPA: 8.02 / 10.0

CERTIFICATIONS

- Data Analysis Internship Certificate — Gateway Software Solutions
- AI-Enabled Applications for Customer Service — IBM SkillsBuild
- Data Analytics Virtual Internship — Deloitte
- Soft Skill Development Certificate

SOFT SKILLS

Client Relationship Management • Multi-Stakeholder Management • Adaptability & Flexibility • Agility for Quick Learning • Process-Oriented • Negotiation • Collaboration & Interpersonal Skills • Analytical Thinking • Attention to Detail • Time Management
